

Merging Clinical, Operational and Financial Performance

The success of any healthcare organization is dependent on clinical, operational and ultimately financial performance. The ability to optimize processes, improve operational efficiencies, define appropriate staffing levels, reduce variation and improve quality and value is necessary to ensure long-term success.

Our team of physicians, nurses and business professionals design and refine processes and programs to enable you to achieve key clinical, operational and financial performance metrics for individual service lines and across the organization.

Comprehensive, Customized Solutions

Through extensive peer-to-peer interviews, real-time observational studies and deep-dive analytics, we perform a root cause analysis to diagnose areas requiring short-term performance improvement as well as those needing longer-term changes in mind-set and behavior.

We believe that the long term success of a healthcare organization is dependent on a patient-centered approach to improving quality and safety, enhancing throughput and managing costs. Our solutions deliver shared efficiencies and operational transformation through:

- Clinical Process Improvement
- Resource / Technology Optimization
- Short Stay Patient Clinical Effectiveness
- Patient Safety, Quality, and Outcome Performance Improvement
- Customized Clinical Program Design
- Provider Leadership and Engagement

Long Term, Sustainable Performance Excellence

Our physician-led team of clinical and operational experts have extensive backgrounds in hospital and ambulatory settings enabling the delivery of performance improvement solutions across the continuum of care. Our Clinical Operations Performance teams have worked in both large academic and small community health systems providing operational assessments, implementation support and long term engagement to build practical solutions that work for the organization; ensuring sustainable results that serve your patients, your employees, and your bottom line. Unique Culture. Exceptional Service.

Schumacher Clinical Partners Consulting Services combines the personalized service, custom solutions and culture of a boutique firm with the extensive expertise and resources of a large company.

The Focus of Our Consulting Services –

We offer comprehensive, end-to-end performance improvement services to help provider organizations adapt and excel.

We are Execution-Focused – A strategy is only as good as the ability of the organization to implement and sustain improvements. Our Consulting Team has decades of experience implementing realistic and cost-effective solutions to complex challenges.

Our Real World Experience – We have experience working in all areas of healthcare, but we are *not* a think tank. We deliver practical solutions to our industry's toughest problems across financial, operational, clinical, and technology areas of healthcare. We see our role as your executive facilitators, guides, and subject matter experts to support your management team and internal resources.

Our Style – We work effectively and easily with all levels of the organization. We listen to all ideas, regardless of where they originate, and evaluate them on their merits. We treat everyone respectfully and professionally. We know how to directly, openly and appropriately deal with complex issues in a positive way, and build commitment and consensus around viable solutions for performance improvement.

The Strength of Our Relationships – Many of our clients are long-term partners and we work with healthcare leaders throughout the course of their careers.

Our Values – Our professionals are focused exclusively on doing what is right for the client. We stand by our commitments. We understand that our clients will benefit from having a Partner that is fully invested in their success.
